

# Chording with String Bending

This is a basic chord progression in the key of A.

A/// Amaj7/// A7/// D6/// Dm6/// A/// E7/// A///

Use the voicings below to set up for bending the third string.

When the third string voice is bent up to the desired pitch we have this -  
A6/// Amaj13/// A13/// D6/9/// Dm6/9/// Asus4/// E13/// A///

Hold the two unbent strings as still as you can while bending that 3rd string to the desired pitch. You'll be pulling the string towards the floor with your first finger. Listen to the pitch critically as you bend.
